## PART III—SECTION 2

### Notifications and Notices issued by the Patent Office relating to Patents and Designs

#### THE PATENT OFFICE Patents and Designs

##### Special Notice

Attention of the public is invited to the Ministry of Commerce and Industry Notification No. S.R.O.1173 dated the 31st May 1955 published in the Gazette of India, Part II, Section 3 dated the 4th June 1955 (page 1008) whereby the Central Government have amended their notification No. S.R.O.681 dated the 23rd March 1955.

In accordance with the said notification dated the 31st May 1955, the Central Government have decided to open Inspection Centres at the following places also:—

- (1) Central Building Research Institute, Roorkee.
- (2) Central Food Technological Research Institute, Mysore.
- (3) National Chemical Laboratory of India, Poona 8.
- (4) National Physical Laboratory of India, New Delhi 12.

#### Applications for Patents

Calcutta, the 3rd September 1955

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

18th August 1955

55202. N. V. De Bataafsche Petroleum Maatschappij. Process for removing mercaptans and any other sulphur compounds, from a hydrocarbon oil by treatment with HF.
55203. Farbenfabriken Bayer Aktiengesellschaft. Process of preparing diazoamino compounds.
55204. Electraulic Presses Limited. Control valves for hydraulic presses. (21st August 1954).
55205. The Peelers Company. Machine for peeling shrimp.
55206. The Buckeye Steel Castings Company. Package spring group and snubber.
55207. The Goodyear Tire & Rubber Company. Improvements in expellent bladder type fuel cell.
55208. The General Electric Company Limited. Improvements in or relating to semiconductor devices. (23rd August 1954).
55209. Allen West and Company Limited. Improvements in or relating to delayed action electrical switching arrangements. (13th September 1954).
55210. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to single-sideband systems for the transmission of speech.
55211. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to methods of reproducing speech and music by means of loudspeakers.
55212. International Combustion (Holdings) Limited. Improvements in or relating to travelling grate stokers. (24th March 1955).
55213. T. S. Long. Improvements in or relating to storage batteries. (19th August 1954).

55214. H. D. Hudson Manufacturing Company. Pressure regulating device.

55215. Ciba Limited. Process for the manufacture of dehydro-compounds of the steroid series.

19th August 1955

55216. Y. R. Subrahmanyam. Skin-match-spectacle-frame.
55217. Shyam Lal. Reinforced concrete tubewell and method for constructing the same.
55218. Esso Research and Engineering Company. Improved fluid coking process. [Addition to No. 51968.]
55219. Imperial Chemical Industries Limited. Improved method of winning coal or other minerals by blasting. [Divisional date, March 13, 1954].
55220. Allen & Hanburys Limited. New organic bases. [Divisional date, November 9, 1954.]
55221. The Dow Chemical Company. Improvements in or relating to moldable compositions.
55222. Makhtsabei Israel. A process of preparing potassium sulphate, manganese chloride and/or manganese hydroxide.
55223. Harry Ferguson Research Limited. Improvements in and relating to motor-vehicle steering mechanism. (25th August 1954).
55224. Mefina S. A. Improvements in or relating to a clockwork movement for mechanical time fuze incorporating means for holding and releasing the striker.
55225. Sulzer Freres. Filtering device.
55226. Ciba Limited. New esters and process for their manufacture.
55227. The Permutit Company Limited. Improvements in cation-exchange resins. (20th August 1954).
55228. Lightning Implements Proprietary Limited. Improvements in agricultural and like implements. (20th August 1954).
55229. Ciba Limited. Pharmaceutical preparations containing new -acyl-butyric acids. [Divisional date, January 11, 1954.]
55230. The Carlton Tyre Saving Company Limited. An improved shuttlecock. (8th September 1954).
55231. Siemens & Halske Aktiengesellschaft. Improvements in or relating to disc-shaped precision toothed wheels and methods of manufacturing same.
- 20th August 1955
55232. Imperial Chemical Industries Limited. Metallisable azo dyestuffs. (10th September 1954).
55233. Imperial Chemical Industries Limited. Water-soluble organic nitrogen compounds. (10th September 1954).
55234. Imperial Chemical Industries Limited. Improvements in or relating to a method for insolubilising artificial filaments, threads, fibres and the like.
55235. Imperial Chemical Industries Limited. Improvements in or relating to a method for insolubilising artificial filaments, threads, fibres and the like.

55236. Imperial Chemical Industries Limited. Improvements in or relating to a method for insolubilising artificial filaments, threads, fibres and the like.
55237. International Telephone and Telegraph Corporation. Omnidirectional beacon system.
55238. International Telephone and Telegraph Corporation. Radio navigation system.
55239. International Telephone and Telegraph Corporation. Radio beacons.
55240. Sandoz, A.G.  $\alpha$ - $\beta$ -Peltatin glucosides and process for their manufacture.
55241. Sandoz, A.G. Alkyl ethers of podophyllum glucosides and process for their manufacture.  
22nd August 1955
55242. Rao Sahib A.R.N. Rao. Improved contact jaws and assembly in electrical switches and the like equipment.
55243. P. H. E. Rehnberg. Prosthesis apparatus adapted to support a leg.
55244. Vychodoceske Papirny. A method of production of cups with an increasing diameter, for textile industry.
55245. Imperial Chemical Industries Limited. Improvements in or relating to a method for insolubilising artificial filaments, threads, fibres and the like.
55246. Imperial Chemical Industries Limited. Improvements in or relating to a method for the production of artificial filaments, threads, fibres and the like.
55247. Imperial Chemical Industries Limited. Improved process for forming thermoplastic compositions. (30th September 1954). [Addition to No. 55186.]
55248. The General Electric Company Limited. Improvements in or relating to electric fans. (30th August 1954).
55249. H. W. Wolff. Improvements in electric circuit breakers. (24th August 1954).
55250. Triangulated (Vehicle) Frames Limited. Improvements relating to railway wagon or carriage underframes. (23rd August 1954).
55251. Filterwerk Mann & Hummel G.m.b.H. An oil-bath air-cleaner, more particularly for internal combustion engines.
55252. Filterwerk Mann & Hummel G.m.b.H. A liquid filter, more particularly for oil.
55253. N. V. Nederlandsche Combinatie Voor Chemische Industrie. Improvements in or relating to new parasympathicolically active compounds and the manufacture thereof.
55254. Ciba Limited. Process for the manufacture of new derivatives of aldehyde condensation products of the aminotriazine or urea group, and their use.
55255. Ciba Limited. Di-imidazole derivatives and process for their manufacture.  
23rd August 1955
55256. S. Yagi and Y. Uruguchi. Improved method of producing heavy water and devices therefor.
55257. Z. J. S. Crasta. A deep well water pump.
55258. J. R. Geigy A.-G. 4-substituted 1,2-diaryl-3,5-diozopyrazolidines.
55259. E. V. Wagner. Improvements in writing instruments with retractable writing tips. (16th September 1954).
55260. The English Electric Company Limited. Improvements in and relating to electric motor control systems. (3rd September 1954).
55261. General Electric Company. Improvements in or relating to synthetic resins and insulated electrical conductors made therefrom.
55262. The General Electric Company Limited. Improvements in or relating to two-coordinate electromagnetic step-by-step switches. (30th August 1954).
55263. W. Kittel. Improvements in and relating to counter-current contact apparatus. (19th May 1955).
55264. Marconi's Wireless Telegraph Company Limited. Improvements in or relating to radio navigation aiding devices. (14th September 1954).
55265. Burtonwood Engineering Company Limited. Improvements in means for lifting and lowering loads from one level to another. (24th August 1954).
55266. May and Baker Limited. Improvements in or relating to amines and to process for their preparation. (25th September 1954).
55267. Los Angeles Steel Casting Co. Ground ripper attachment for tractors and the like.
55268. Metropolitan-Vickers Electrical Company Limited. Improvements in insulator strings for high voltage conductors. (31st August 1954).
55269. Ciba Limited. Process for the manufacture of new di-imidazole derivatives.  
24th August 1955
55270. Babcock & Wilcox Limited. An improved method of and apparatus for burning a low ash content particle-form fuel.
55271. Babcock & Wilcox Limited. Improvements relating to tubulous heat exchange units.
55272. British Insulated Callender's Construction Company Limited. Improvements in the making of excavations by means of an auger. (1st September 1954).
55273. Chas. Pfizer & Co. Inc. Improvements in process for the purification of basic antibiotics.
55274. D. P. Asar. Improvement in or relating to windows.
55275. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to single-sideband receivers for speech signals.
55276. Electroflo Meters Company Limited. Improvements relating to fluid-flow measuring devices. (24th August 1954).
55277. R. Wardle. Improvements in or relating to footwear. (9th October 1954).

#### Alteration of Date

51366. The claim to priority date 3rd September 1953 has been abandoned and the application dated as of 26th February 1954, the date of filing in India.

54056. Ante-dated to 18th August 1954, under Section 5 of the Act.

#### Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

50942. C. A. Parsons & Company Limited. Improvements in and relating to method and apparatus for the fluidization of substances in powder form. (7th January 1953). Accepted on 18th August 1955.

*The fluidizing medium is admitted through a diffuser.*

51306. G. H. Heetbrink and Dr. C. V. E. Baos. An indicator for determining the period during which a woman is capable of conceiving. Accepted on 18th August 1955.

*Wherein the two cycle discs are each provided with an index indicating the end and commencement of the fertile period and also an adjustment disc located between the longest cycle disc and the base disc.*

51314. Dunlop Rubber Company Limited. Improvements in or relating to machine belting and the manufacture thereof. (24th February 1953). Accepted on 18th August 1955.

*A combination of woven duck fabric or her-ringbone twill weave and a polyvinyl composition.*

51331. Boots Pure Drug Company Limited. Acaricidal compositions. (2nd March 1953). Accepted on 22nd August 1955.  
*Preparing by oxidising  $C_6H_5(X)-S.CH_2C_6H_5(Y)$  with  $H_2O_2$  in acidic medium.*
51334. Ciba Limited. Manufacture of new products related to aldosterone by enzymatic oxidation. Accepted on 22nd August 1955.  
*Saturated or unsaturated 3:18:20-trioxygenated pregnene compound or derivative thereof is subjected to the aerobic action of an enzyme which is known to introduce oxygen in the 11-position.*
51335. Ciba Limited. Manufacture of new pregnenals and derivatives thereof. Accepted on 22nd August 1955.  
*Reacting a quaternary 3:18-dioxygenated 20-oxo-pregnane-20-yl-ammonium compound with an organic nitroso-compound and the resulting nitron is transformed by hydrolysis into the corresponding aldehyde.*
51359. Prof. Dr. T. Reichstein. Manufacture of 18-oxygenated steroids. Accepted on 22nd August 1955.  
*Halides of 3-oxygenated steroid-17-carboxylic acids are reacted with diazomethane, a hydroxyl group is introduced into the 21-position of the compounds obtained.*
51360. Prof. Dr. T. Reichstein. Process for the synthesis of steroids. Accepted on 22nd August 1955.  
*Saturated or unsaturated polyhydrophenanthrenes are intramolecularly condensed.*
51366. Alweg-forschung-Gesellschaft mit beschränkter Haftung. Improvements in or relating to means of transportation. Accepted on 22nd August 1955.  
*A beam-shaped monorail track, a conventional two-rail track and a transition portion, on which the monorail track is flanked by the two rails of the conventional track.*
51376. Ferfogit Società per Azioni. Low speed feeding thread storing thread advancing device comprising an idle advancing roller. Accepted on 20th August 1955.  
*Having two rollers with axis askew to one another characterised in that idle roller is divided into two independent portions.*
51548. Mannesmann Aktiengesellschaft. Improvements in or relating to processes and apparatus for the manufacture of tubes from hardening substances, such as concrete and the like. Accepted on 18th August 1955.  
*A batch of wet material is supplied to a core roller by means of a conveyor belt guided by tension and grid rollers, the material on the core roller is compressed gradually.*
51552. British Insulated Callender's Cables Limited. Improvements relating to apparatus for use in the application of sheaths to electric cables. (16th April 1953). Accepted on 23rd August 1955.  
*Comprises a device for gripping the coil, a car having means for propelling it from the soil, a source of compressed air adapted to be connected to the tube.*
51656. Rocla Pipes Limited. A method of applying wire under controlled tension in the manufacture of prestressed reinforced concrete articles. Accepted on 18th August 1955.  
*Drawing wire through train of pulleys and controlling bending of the wire when drawn through the train.*
51840. M. Vaugh. Improvements in or relating to reciprocating pumps. Accepted on 22nd August 1955.  
*Piston reciprocated by handle constituting one arm of a bellcrank lever, other arm of which is a grooved quadrant and which is pivoted at its apex by the side of the pump.*
51993. Portasil Limited. Improvements in or relating to structural or reinforcing elements made wholly or principally from wood. (1st June 1953). Accepted on 19th August 1955.  
*Each layer of wood is bounded by a layer of plywood and all the layers are composed of arcuate components with staggered relationship.*
52024. Motoren Werke Mannheim A.G. Improvements in cooling arrangements for internal combustion engines. Accepted on 19th August 1955.  
*Oil cooler connected to cutout over part of length of guide channel for air stream and through which flows secondary air stream branching off from main stream in channel.*
52110. Mayor & Coulson Limited. Improvements in loading machines. Accepted on 19th August 1955.  
*Applying to displaceable conveyor chain pullery a lever and spring assembly comprising level fulcrumed to frame and oppositely acting spring between pullery and lever and frame and lever, one having greater purchase than other.*
52234. The Glacier Metal Company Limited. Composite bearing and bearing materials. Accepted on 19th August 1955.  
*Comprising matrix of hard metal or alloy and lining of soft metal or alloy wherein the matrix of material has modulus of elasticity of not less than  $23 \times 10^6$  lbs. per square inch.*
52582. Mrs. Madhuri Mahalanabis. An educational device. Accepted on 23rd August 1955.  
*Comprises a base plate and a top plate fixed on the base plate with complementary fretwork configurations representing alphabets.*
52766. Siemens-Schuckertwerke Aktiengesellschaft. Condenser-excited asynchronous generator. Accepted on 23rd August 1955.  
*Provided with parallel capacitance and additional circuit elements.*
52845. Inventa A. G. für Forschung und Patentverwertung. Improvements in or relating to decomposition of lignin. Accepted on 20th August 1955.  
*Subjecting lignin to continuous hydrogenation at elevated temperature and pressure.*
52846. Inventa A. G. für Forschung und Patentverwertung. Improvements in or relating to decomposition of lignin. Accepted on 20th August 1955.  
*Subjecting lignin to continuous hydrogenation at elevated temperature and pressure in the presence of a catalyst.*
52847. Inventa A. G. für Forschung und Patentverwertung. Improvements in or relating to recovery of lignin from black lye. Accepted on 20th August 1955.  
*Continuous precipitation with carbon dioxide at elevated temperature and pressure.*
52892. Siemens-Schuckertwerke Aktiengesellschaft. Parallel running of self-regulating synchronous generators. Accepted on 19th August 1955.  
*Generators, during parallel running connected across output terminals and excitation circuit leads.*
52931. Inventa A. G. für Forschung und Patentverwertung. Improvements in or relating to decomposition of lignin. Accepted on 20th August 1955.  
*Continuous treatment with hydrogen at above  $350^\circ\text{C}$  and pressure above 300 atmos in presence of catalyst and carrying the decomposition in presence of water.*
52979. S. Knutsson. Pickers for looms. Accepted on 19th August 1955.  
*Consisting a body of nylon and being provided at least in one of its end surfaces with a recess for an exchangeable soft insert.*
53004. Creed & Company Limited. Facsimile recorders. Accepted on 24th August 1955.  
*Comprises carriage means for traversing, advanced stylus with holding means and stylus positioning stop.*
53005. Creed & Company Limited. Facsimile transmitter. Accepted on 24th August 1955.  
*Comprises a rotatable drum, scanning means, output circuit and blanking means.*
53382. Imperial Chemical Industries Limited. New Compositions for use in the manufacture of light-sensitive photographic materials. (1st January 1954). [Addition to No. 49667]. Accepted on 24th August 1955.  
*Replacing some or all of the gelatine in the silver halide emulsions used, by one or more gelatine substitutes.*

**53554. J. Martin.** A method of deploying drogue parachutes for use with an ejection seat. (21st January 1954). Accepted on 22nd August 1955.

*Wherein a pilot drogue parachute on being deployed starts to swing the ejection seat, with-draws and controls the deployment of the main drogue parachute.*

**53704. N. H. G. Smith.** Portal frame structures. (5th February 1954). 23rd August 1955.

*Comprised by flats separated by sinous inter-laced bars welded at the crossings.*

**53746. Takeda Pharmaceutical Industries, Ltd.** Improvement in enriching grains. Accepted on 19th August 1955.

*Making grain absorp derivatives of thiol from thiamine.*

**53786. J. A. E. Farbrother.** Improvements in or relating to vehicles. (13th February 1954). Accepted on 18th August 1955.

*Air pressure below the vehicle chassis lifts the vehicle out of contact with the ground to be driven by a propulsion unit.*

**54046. Imperial Chemical Industries Limited.** Process for converting a thermoplastic polymeric material into granular form. (19th March 1954). [Addition to No. 52569]. [Divisional date, August 18, 1954]. Accepted on 20th August 1955.

*The thread or rod is cut by a rotating cutter, the cooling liquid being supplied to the cutter and means provided to conduct away the liquid and granules of polymeric material.*

**54052. Lewis-Shepard Company.** Lifting mechanism. Accepted on 24th August 1955.

*Comprising a load carriage movable longitudinally of an upright, fitted and movable longitudinally of a mast and four pairs of equidiameter idlers.*

**54072. T. J. Smith & Nephew Limited.** Improvements in and relating to adhesive tapes, sheets or the like, including medical and surgical dressings. Accepted on 22nd August 1955.

*Pretreating roller with release agent topping with adhesive and transferring the coating to backing.*

#### Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines, Delhi, or on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

47770. 48480. 48499. 48938. 48939. 48957. 48970. 49136. 49137. 49164. 49343. 49407. 49457. 49505. 49536. 49597. 49663. 49705. 49887. 49971. 50011. 50015. 50045. 50111. 50420. 50677. 50697. 51098. 51099. 51121. 51225. 51328. 51348. 51390. 51391. 51480. 51510. 51545. 51609. 51702. 51783. 51834. 51902. 52014.

#### Correction of Clerical Errors

Under Section 62 of the Indian Patents and Designs Act, 1911, certain clerical errors occurring in the specification No. 47354 were corrected on 25th August 1955.

#### Patents Sealed

49582. 49774. 49781. 49825. 49884. 49922. 50084. 50122. 50305. 50321. 50521. 50597. 51022. 51133. 51150. 51262. 51342. 51641. 51691. 51815. 51964. 51997. 52187. 52190. 52313. 52447. 52452. 52510. 52551. 52662. 52877. 53189. 53234.

#### Amendment Proceedings

The amendment proposed by Standard Oil Development Company in respect of Patent application No. 50468 as advertised in the Gazette of India, Part III, Section 2, dated the 14th May 1955 has been allowed.

#### Registration of Assignments, Licences, Etc.

Assignments, Licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest:—

49430. The Dow Chemical Company.

51668. Heberlein & Co. A.G.

#### Applications for Compulsory Licence

##### Under Section 22

Notice is hereby given that an application under Section 22 of the Indian Patents and Designs Act, 1911, has been filed by Messrs. Indian Die Casting Co. of 25,

Barrackpur Trunk Road, Calcutta, in respect of Patent No. 43537 for an invention entitled "Capseals for container closures and combinations". The applicants have been directed to serve copies of the application and of the evidence filed in support thereof upon the patentees and any other person appearing from the Register of Patents to be interested in the patent. Any person desirous of opposing the said application shall within 2 months from the date of the service of a copy of the application upon him give notice of opposition on Form 11-C of the Indian Patents and Designs Rules, 1933, setting out fully the grounds on which the application is opposed. The notice shall be accompanied by evidence in support of the opposition. Copies of the notice and of the evidence shall within the same time be delivered to the applicants C/o Messrs. L. S. Davar & Co., Norton Buildings, Calcutta.
